

**Slovenian Society of Anaesthesiology and
Intensive Care Medicine
Slovenian Medical Association**

FINAL PROGRAMME

**24th ANAESTHESIA SYMPOSIUM
ALPE – ADRIA**

**HOTEL GOLF, BLEED, SLOVENIA
September 16th – 18th, 2011**

Eventual changes in the final programme will be on the website

Organizers of the Symposium

Slovenian Society of Anaesthesiology and Intensive Care Medicine (SSAICM)

Slovenian Medical Association (SMA)

in cooperation with

Associations of Anaesthesiologists of Carinthia, Croatia, Friuli Venezia Giulia and Styria

together with

Universities of Graz, Ljubljana, Maribor, Rijeka, Trieste, Udine, Zagreb and
General Hospital of Klagenfurt

Organising committee

President: Novak Jankovič V

Vice-president: Stecher A

Secretaries: Potočnik I, Markovič Božič J, Ivanova E

Members: Gerjevič B

Technical board: Apfel M, Perko S

Scientific committee

Avsec Letonja D, Benedik J, Cesar Komar M, Kamenik M, Kremžar B, Likar R, Maldini B, Majerič-Kogler V, Marić S, Markovič Božič J, Mekiš D, Mušič P, Mušič Š, Perić M, Potočnik I, Stopar Pintarič T, Šakić K, Šoštarič M, Voje M, Zabavnik Z, Župan Ž

Faculty

Cecconi M, Della Rocca G, Götting L, Green D, Gurman G, Manohin A, Mellin-Olsen J, Milenović M, Paver-Eržen V, Yates D

Registration

The registration form with instructions for registration can be found on web side **www.szaim.org**

Registration fee

Medical doctors, residents: 100 € VAT included
Technicians: 50 € VAT included
Retired doctors, students, : Free

Registration fee includes all scientific sessions, proceedings and refreshments

Official languages

English, Slovenian

Presentations

Invited lectures: 15-20 min, Oral presentations: 8-10 min

Continuing Medical Education Credit

During the congress industrial exhibition will be held

Programme

Friday

15:00 Registration

15:15-17:00 Difficult intubation

JUPITER

Chairs: Benedik J, Maldini B

15:15-15:30 Maldini B, Maric S, Vucic M, Gvozdenovic A, Novotny Z, Stefancic L, Goranović T, Baranovic S, Skuric J: Our practice in difficult airway management

15:30-15:45 Mekiš D: How to predict difficult mask ventilation and orotracheal intubation

15:45-16:00 Drnovšek Globokar M: Difficult airway and one-lung ventilation

16:00-16:15 Jeglič G: Tips and tricks of fiberoptic intubation

16:15-16:30 Benedik J: Difficult airway in head and neck surgery

16:30-16:45 Lužar T: Difficult intubation in head and neck surgery - case presentation

16:45-17:00 Marič S, Štefančič L, Maldini B: Analgosedation and local anesthesia for difficult airway management - fiberoptic intubation (foi)

19:00 OFFICIAL OPENING

**GRAND HOTEL TOPLICE
DVORANA GRAND**

Opening lecture: Mellin-Olsen J: The Helsinki Declaration on Patient Safety – where do we go from here?

Social programme

Cocktail party

Saturday

JUPITER

8:30 Registration

9:00-11:00 Haemodynamic monitoring in the operating room and intensive care unit I

Chairs: Kamenik M, Šoštarič M

Invited lectures

9:00-9:20 Chiarandini P, Della Rocca G: Perioperative hemodynamic optimization: why should we do it and where are we?

9:20-9:40: Gottin L: The use of minimally invasive monitoring in patients undergoing high risk non cardiac surgery

9:40-10:00 Šakic K: Recognition of critically ill patient in the hospital: patient safety

10:00-10:20 Stopar Pintarič T, Potočnik I, Novak Jankovič V: Thoracic epidural vs. paravertebral analgesia on intraoperative haemodynamics

10:30-11:00 Coffee break

**WORKSHOP ON LARYNGOSKOP MC GRATH - AIRCRAFT
NON-INVASIVE HAEMODYNAMIC MONITORING – BMEYE**

Urbild W

MARK MEDICAL  **mark medical™**
empowering healthcare

JUPITER

11:00-13:00 Free topics

Chairs: Cesar Komar M, Gerjevič B

Invited lecture

11:00-11:20 Avsec Letonja D, Logar Zakrajšek B: Public awareness about organ donation and celebration of the european donation day

Oral presentations

11:20-11:30 Rizzardo A, Miceli I, Divella M, Buttazzoni M, Benedetti C, Della Rocca G: Development of ultrasound training model for zygoapophyseal joint injections

11:30-11:40 Lopuh M, Pergarec Žansky I, Bassanese A: Effective palliative network – better life quality at the end of life

11:40-11:50 Stražišar B, Bešić N, Blas M: Comparison of systemic and local pain treatment in patients after operation of breast carcinoma and after primary reconstruction with tissue expander; a prospective randomized study

11:50-12:00 Jošt A, Ban B, Kamenik M: Modified pca remifentanil bolus delivery regimen for labor pain

12:00-12:10 Režonja K, Repar A, Požar Lukanović N, Spindler Vesel A: Comparison of efficiency of analgesia in pcea, pca and 5% lidocaine patch in laparoscopic colorectal surgery

12:10-12:20 Vilardi A, Toretti I, Brazzoni M, Dottore B, Muzzi R, De Monte A, Della Rocca G: Ultrasound-guided brachial plexus nerve block vs procedural sedation for the treatment of upper extremity dislocations

12:20-12:30 Čulav K, Štefančić L, Marić S, Maldini B: Efficacy of the specific antiemetic protocol to prevent postoperative nausea and vomiting in breast cancer surgery patients

12:30-12:40 Štivan F, Benedik J, Lužar T: Electronic anesthesia records (compurecord)

12:40-12:50 Duri D, Reccardini P, Saltarini M, De Lucia S, Da Broi U, Tricarico E, De Monte A: Smart pilot view® as a new toll to assess and monitor anaesthesia depth:

Preliminary experience

13:00-15:00 Lunch symposium

DIFFICULT AIRWAY MANAGEMENT WORKSHOP

Vučić M, Novotny Z.

KARL STORZ  KARL STORZ - ENDOSKOPE

JUPITER

15:00-19:30 Haemodynamic monitoring in the operating room and intensive care unit II

Chairs: Stecher A, Požar Lukanović N, Ostojič Kapš S

Invited lectures

15:00-15:30 Green D: Advanced monitoring of the high risk surgical patient

15:30-16:00 Cecconi M: Goal Directed Therapy: Impact on Outcome

16:00-16.20 Kamenik M: Methods for measuring cardiac output

16:20-16:40 Šoštarič M: Cerebral oximetry in clinical practice

16:45-17:15 Coffee break

WHY TCI- CLINICAL EXPERIENCES OF TCI USAGE AT CARDIOSURGERY

Papp C

AMS MEDING ams meding d.o.o.

JUPITER

17:15-19:20 Oral presentations

Chairs: Mekiš D, Marić S, Voje M

17:15-17:30 Debelic D: Transthoracal echocardiography in the hands of anesthesiologists and intensivists

17:30-17:40 Potočnik I, Kostadinov I, Štupnik T, Novak Jankovič V: Haemodynamic changes after induction in anaesthesia

17:40-17:50 Šoštarič M, Koren A: Importance of the mechanical circulatory support for patients after a heart operation

17:50-18:00 Pirtovšek Štupnik Š, Kosmač N: Percutaneous pulmonary valve implantation (melody): our experience in first 4 patients

18:00-18:10 Möller Petrun A, Wagner Kovačec J, Mekiš D: Volume replacement therapy in severely polytraumatised patient

18:10-18:20 Licari M, De Monte A: Efficacy of administration of exogenous surfactant in ards, a case report

18:20-18:30 Vilardi A, Toretti I, Brazzoni M, Silvestrin C, Dottore B, Muzzi R, Della Rocca G: Urgent reversal in a patient on oral anticoagulation and antiplatelets therapy, neurosurgical case report

18:30-18:40 Cammarano C, Di Silvestre A, Pravisani C, Flore I, Accolla P, Muzzi R: The role of recombinant activated coagulation factor vii activated in facilitating the control of bleeding following major trauma.

18:40-18:50 Brondani A, De Angelis P, Iacobucci A, Accolla P, De Monte A: Preliminary experience with nava ventilation in difficult to wean ards patients. Case report.

18:50-19:00 Serena G, Buttazzoni M, Spagnesi I, Vilardi A, Baroselli A, Centonze C, Brazzoni M, Zearo E, Toretti I, Buttera S, Granzotti S, Della Rocca G: Outcome and length of stay in non-cardiac surgery patients

19:00-19:10 Buttazzoni M, Serena G, Spagnesi I, Vilardi A, Baroselli A, Centonze C, Brazzoni M, Zearo E, Toretti I, Buttera S, Granzotti S, Della Rocca G: Perioperative fluid management and outcome in surgical patients

19:10-19:20 Burša F, Olos T, Pleva L: Monitoring of tissue metabolism in haemorrhagic shock with microdialysis

20:30 COCKTAIL PARTY: Uroš Perić

JUPITER

8:30 Registration

8:40-13:45 Approach to teaching anaesthesia and intensive medicine

Chairs: Likar R, Markovič Božič J, Mušič P, Mušič Š, Potočnik I

Invited lectures

8:40-9:00 Gurman G: Teaching the teacher-why is compulsory

9:00-9:20 Paver Eržen V: Simulation in anaesthesia and intensive medicine

9:20-9:40 Gradišek P, Manohin A: A new approach to the use of a simulation centre at the undergraduate level

9:40-10:00 Milenovič M: Improving teachers and presenters skills

10:00-11:00 Markovič Božič J, Mušič P, Mušič Š, Potočnik I: Teaching the teacher- How to prepare a case presentation

11:00-11.15 Coffee break

Invited lectures

11:15-11:45 Majerič Kogler V: The quality indicators in intensive care unit

11:45-12:15 Yates D: Fluid management in the high risk surgical patient. My experience and current practices

12:15-13:45 Oral presentations

12:15-12:25 Gschiel B: Perioperative medication management- a comparison between cardiac and noncardiac surgery

12:25-12:35 Simone F, Andonov N, Šoštarič M: A case report of patient with cold agglutinins in cardiac surgery

12:35-12:45 Skrt A, Visočnik B, Mušič P: Venous air embolism during 4th ventricle surgery in sitting position – a case report

12:45-12:55 Durnev V, Taleska G, Trajkovska T: Remifentanyl anesthesia in patients with myasthenia gravis – our first experiences

12:55-13:05 Grynjuk A, Tišler U, Šoštarič M: Use of bivalirudin in patients with heparin-induced thrombocytopenia scheduled for cardiac surgery

13:05-13:15 Vesel T, Radovič O, Kođak R, Đilar M, Zidarn M, Avčina T: Approach to a child with multiple drug allergies

13:15-13:25 Pejić L, Ivanova E, Žarković S, Stopar Pintarič T: A perioperative guidance of a patient with osteopetrosis . A case report

13:25-13:35 Gorjup K, Damjanovska M: Pulmonary embolism in 26 year old female after laparoscopic gastric sleeve resection – case report

13:35-13:45 Ravnikar J, Potočnik I: Blunt chest injury: case report

14:00 Closing of the symposium
